

PREFATORY NOTE

This edition covers the years from 1940 through 2017, and cumulates and supercedes the previous edition, *Current Biography Cumulated Index, 1940-2013*. The reader will need to only consult this index in order to locate a name that appeared in the previous 78 volumes of *Current Biography*.

The dates after the names indicate the monthly issue(s) and yearbooks containing the biographies and obituaries.

In addition to the alphabetical name index, this edition includes a Profession Index. The Profession Index lists the nearly 21,000 subjects by 865 professions—from AIDS activists to Zoologists. A subject is listed under as many professions as their biography profiles.
