H.W. Wilson Announces the Annual Cumulation of *Short Story Index, 2018*

The Short Story Index is an essential resource for readers seeking short stories by author or genre, or for those researching a body of work of a literary figure. It provides detailed indexing for thousands of short stories that would otherwise be incredibly difficult to find.

From Adventure Stories to Zombies in Literature, from the stories of Sherman Alexie to Charles Yu, and everything in between, this comprehensive index provides students and researchers with immediate access to thousands of short stories, arranged by Author, Title and Subject Area. Without this important index, these short stories can be incredibly hard to find, or can go completely overlooked.

A combined Author, Title and Subject Index makes easy work of researching short stories by a number of different criteria.

The author entry is the main entry, and includes the following information:

- **The writer's name**
- **Story title**
- **Author or editor**
- **Title of the collection in which the story can be found.**

Plus, a List of Collections provides a complete list of all collections covered in each edition.

This unique reference aid is a guide to important contemporary literature for students, literary researchers and other library users. It provides thorough, accurate indexing of short stories written in or translated into English and published in collections. This updated edition provides immediate access to nearly 4,000 short stories and over 300 collections.

The Short Story Index is published annually in a vinyl bound single volume.
